

It's hard to believe, but summer is just around the corner. If you're looking for a way to keep the little ones entertained, make sure you check out the activities being organised by **Woodland Pre-Schools**. We spoke with the team for some insights.

Give us a brief rundown into what Woodland is offering this summer.

Our new Summer Fun Programme aims at entertaining and educating children over the holidays through six weeks of exciting themed activities. Stepping into a new world each week, they'll become immersed in the theme through a range of focused approaches. You can enrol your child for a week, or for the whole six-week course; either way, each day will give them access to new experiences in drama, sport, music, art and cooking. Your child will be able to hone and develop their skills in these areas as they concentrate on a different combination of subjects each day of the week.

What are some of the themes?

They include Underwater Adventure, Fairytales, Mad Scientists, Pirates, Popular Stories, Gardening and Nature, and they're all designed to keep children fully engaged, enthralled and well-rounded throughout the summer. Pure Mandarin classes are also available at certain campuses.

Woodland also has a new sport-related programme, right?

Yes, the Summer Sports & Games Programme; it aims to help develop children's fitness levels by building strength, flexibility and endurance, and they'll also learn the importance of healthy eating and hydration. Specific skills will include throwing,

catching, kicking and dribbling with balls; balance, co-ordination and agility; and various co-operation skills including teamwork and sportsmanship. In short, the programme will optimise your child's fitness this summer in an interactive way.

Is it possible for children to take part in both programmes?

Yes, you can mix and match your child's activities to ensure maximum benefits in their intellectual and physical development – for instance, they can partake in Summer Fun in the mornings and then enjoy Sports & Games in the afternoons. Either way, there's a wide range of engaging, fun-filled activities to stimulate your little one's mind and body.

Fast facts

- Both Summer Programmes are taught by qualified and enthusiastic early years educators who are committed to children's overall development and wellbeing.
- The summer programmes are open to all children, not just Woodland students.
- The Summer Fun Programme is open to children aged six months to seven years, while the Summer Sports & Games Programme is for children from preschool up to seven years. *æ*
