

Rollers

For children aged 6 to 12 months (accompanied)

Rollers classes are for children aged 6 to 12 months, accompanied by an adult who is encouraged to take part in our activities where appropriate. We offer a stimulating environment where your child will have the opportunity to interact in a group and enhance their natural skills of balancing, rolling, rocking, pulling and pushing. Over time your child will learn to be in contact with other babies and explore their surroundings through fun and engaging activities.

At the same time, you or the carer will learn new and constructive ways to interact with your child at home. We cover all areas of child development in this play-based programme including exploration and discovery of the senses, gross motor development and movement.
